

# Micro-credential Guidelines for Student

Distance and remote locations are no barriers to your learning journey.

IMU e-training Learning Management System (LMS) acts as the main platform where you can access your learning materials at anytime and anywhere.

## How to Log in to Your MiC Course Page

Your micro-credential course can be accessed via <https://e-training.imu.edu.my/>

Let's learn the step.

Steps	Description
<b>STEP 1:</b> Go to <a href="https://e-training.imu.edu.my/">https:// e-training.imu.edu.my /</a>	 A screenshot of a Google search page. The address bar shows 'e-training.imu.edu.my'. A yellow callout box with a pointer to the address bar contains the text 'Go to https://e-training.imu.edu.my/'. The page features the Google logo, a search bar, and buttons for 'Google Search' and 'I'm Feeling Lucky'. The text 'Google offered in: Bahasa Melayu' is visible at the bottom.

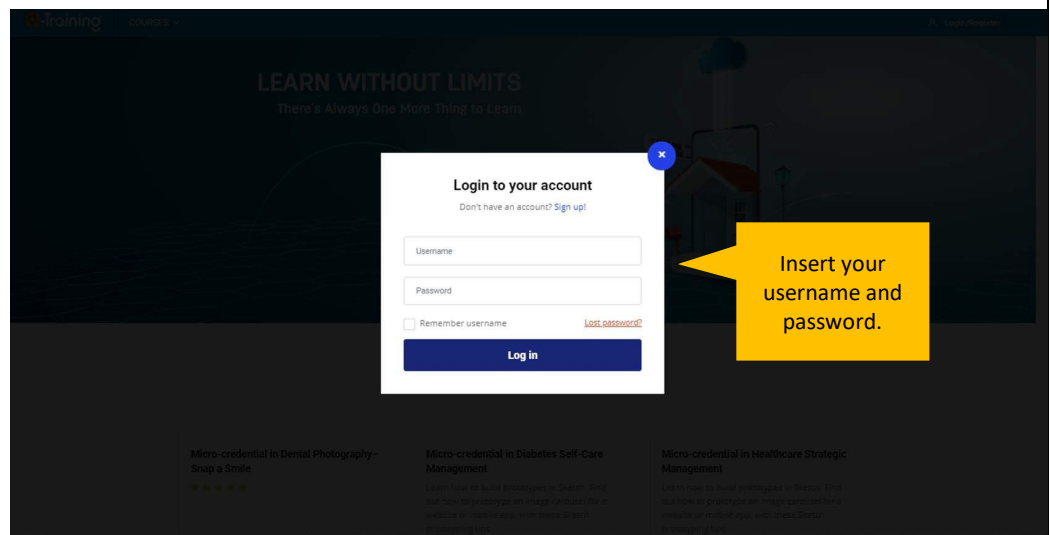

**STEP 2:**

**Click Login/Register to log in to your course.**

**STEP 3:**

**Insert your username and password.**

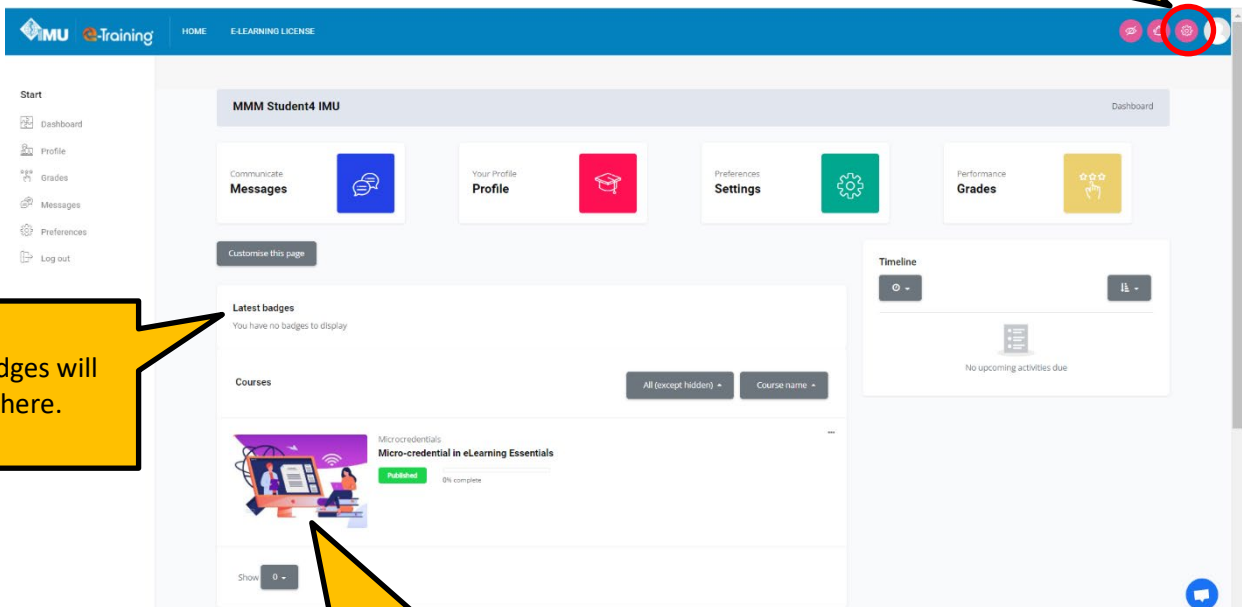

# Getting to Know The Dashboard

You will land on the Dashboard page when you first log into the portal.

The dashboard is an intuitive way of providing you with details of your course list, system announcements, and links to resource blocks.

## Navigation

By clicking this gear icon, you can see the link to your dashboard and available courses.

## Badges

All your e-badges will be displayed here.

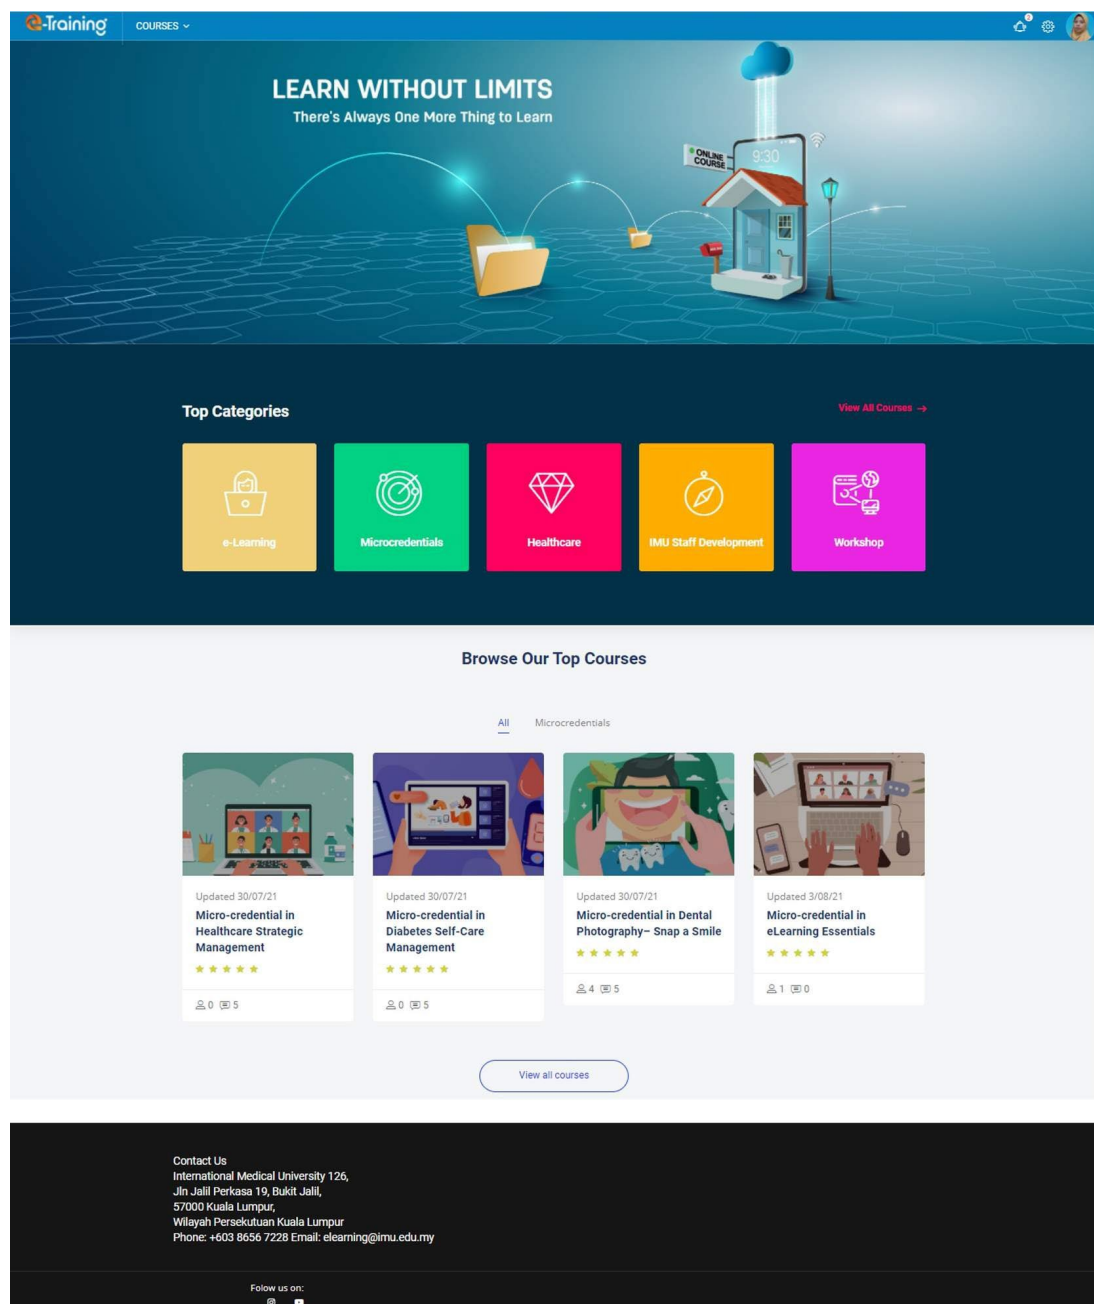

## Courses

All enrolled courses will be listed here. Hover the grid image and click the "View" button to go the course.

# Getting to Know The Site Home

Site Home page is the front page of e-Training portal.

Let's look at the front page of IMU e-Training portal.

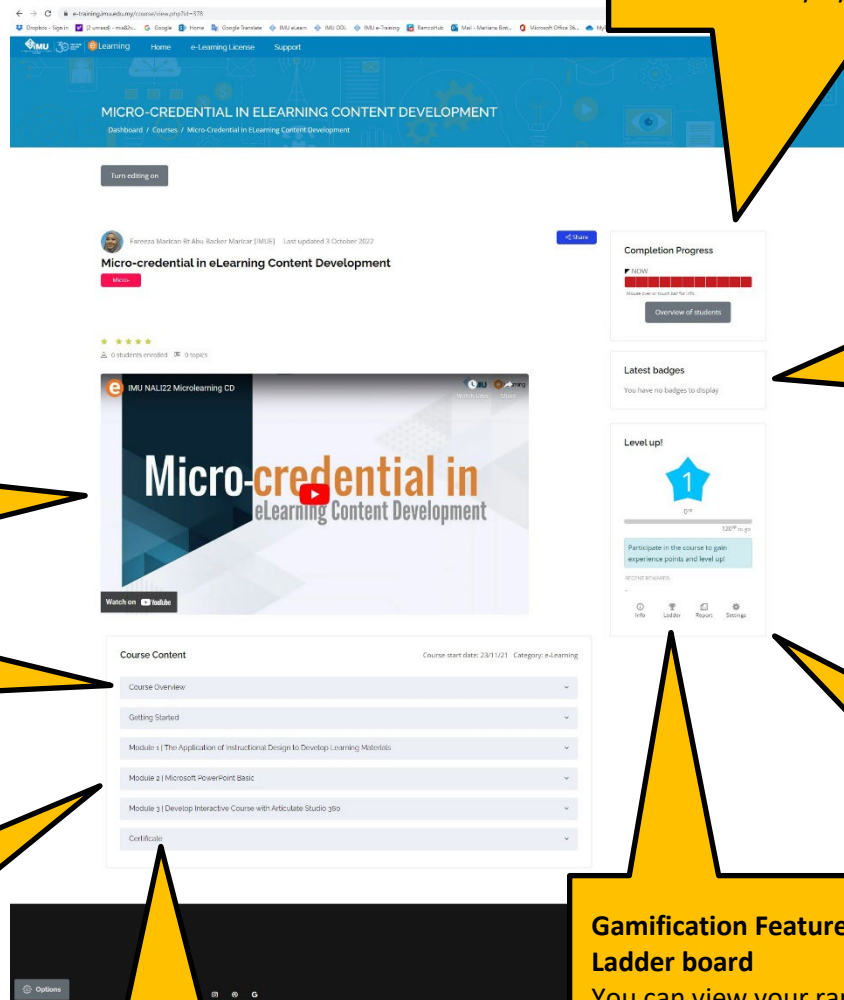

**Top Categories**  
List of categories available in the portal.

**Course list**  
List of all courses available in the portal.

# Getting to Know your MiC Course Page

## Course Page

This is the main page of your Micro-credential course.

**Introduction Video**  
An introduction video to introduce the course.

**Course Overview**  
Detailed information of the course.

**Course Content**  
You can click each module button to view the content.

**Certificate**  
You download your certificate once you have completed all assessment in this course.

**Completion Progress**  
An overall view of progress from all tracked activities. Red indicates incomplete activity, yellow indicates in progress activity, and green indicates completed activity. You can go to any tracked activity by clicking on each square.

**Badges**  
You can see your collected badges.

**Gamification Feature: Points**  
You can see your collected points based on completed activities.

**Gamification Feature: Ladder board**  
You can view your rank and collected points here.

## Module Completion

To complete a module, you need to go through the learning material provided and complete all the activities under assessment.

Module 1 | The Application of Instructional Design to Develop Learning Materials

---

**Module 1 | The Application of Instructional Design to Develop Learning Materials**

### Welcome!

This module basically will assist you in understanding the instructional design and its models and principles. By applying instructional design, it helps to compress the learning process and fill the knowledge gaps in the most effective way. This module explores the principles of effective instructional design, instructional design models and how we can chunk the content to make it more organised and meaningful.

### Learning Outcomes

At the end of this module, you should be able to:

- Explain what is instructional design and how it helps learners understand better
- Apply Gagne's Events of Instruction in design a learning
- Organise the content to make it more meaningful for learners to understand and remember
- Apply instructional design principles in designing the content
- Design meaningful activities that align the learning outcomes

### Facilitator

- Mrs Fareeza Marican binti Abu Backer Maricar
- Mrs Marlina binti Omar Bakhi

We hope you have completed your lesson plan in your Gagne's course as it is fundamental to designing and developing your slides. You may use your lesson plan to design your presentation slides for this course.

Discuss and ask questions freely and do take ownership of your own learning process. Happy learning! :D

---

### Learning Material

Go through the below content before proceeding with the activities (Assessment and Forum).

---

 Module 1 | The Application of Instructional Design to Develop Learning Materials

---

 Module 1 | Printable Learning Material: The Application of Instructional Design to Develop Learning Materials

---

### Assessment

The assignment is about the application; applying what you have learned about principles, models, and frameworks to develop a learning experience.

Instruction:

1. Structure the delivery of your content based on Gagne's 9 Events of Instruction
2. Apply multimedia principles of learning to your content
3. Upload completed slides via the assignment link provided
4. Prepare your teaching slides for synchronous online delivery with the content required based on your learning outcomes

---

 M1 | Online Submission | Application of ID to Develop Learning Materials

Please upload a PDF file for this assignment.

---

 Forum | Share your experience
